Approx. Attendance at the network meeting	20
Election of convenor (<i>if changes please fill in new name and e-mail</i>)	
Activities outside the congresses	
Activities between congresses	Reviewing process NERA 2022 Network 20 had 13 members who had signed up for reviewing this year. They worked in pairs, and if they disagreed, I as convener had the final word regarding if the abstract could be accepted or not.
Any other information/orientations about the network	As I informed you about at the convener meeting, I don't have access to post anything at the networks website.
Minutes from network meeting	The participants presented themselves in the beginning of the meeting. I informed the members about the information I got at

	<p>the convener meeting. We had a short discussion based on that presentation.</p> <p>Unfortunately, we had some problems because some of the presenters in the next parallel session, misunderstood and thought they could arrange the room for the presentation before their time. We used 15 minutes of our network meeting to convince them about our right to use the room for our network meeting, which cut our meeting quite short.</p>
